TERRAVOLT RENEWABLES · FACT SHEET · OCT 2026

# Hybrid Plants

Reference site: Saltbush Ridge, AZ - 300 MW solar + 300 MW / 1.2 GWh storage, since June 2023

Solar and storage behind one grid connection, sharing a substation and one buyer. The battery fills from the panels beside it and delivers into the evening.

## PLANT

| | |
|---|---|
| Solar | **300 MW AC** |
| Storage | **300 MW / 1.2 GWh** |
| Connection | **One, 300 MW** |
| Coupling | **AC-coupled** |
| Trackers | **Single-axis, bifacial** |

## PERFORMANCE

| | |
|---|---|
| Round-trip efficiency | **87%** |
| Charge from own panels | **94% (2025)** |
| Evening block | **17:00-21:00** |
| Monitoring | **Every 5 s, Sandoval control room** |

## NEXT HYBRID

| | |
|---|---|
| Site | **Arden Plains, TX** |
| Size | **610 MW + 200 MW / 0.8 GWh** |
| Contracts | **20-yr PPA + 15-yr tolling** |
| Commercial operation | **Q2 2027** |
